CONDITION SURVEY REPORT

SIMSL SURVEY NO	:
VESSEL'S NAME	:
IMO No.	:
DATE OF SURVEY	:
PLACE OF SURVEY	:
SURVEYOR'S NAMES	:

FORMAL SURVEY REPORT

1.	Vessel's name & flag	
2.	IMO number	
3.	Owner's name & nationality	
4.	Manager's name & nationality	
5.	Vessel type	
6.	Year & country of build	
7.	Gross Tonnage Dimensions (L x B x D) Summer Draft (d)	
8.	Classification Society	
9.	Trading area	
10.	Date & place of survey (Man hours taken for Survey)	
11.	Survey Company	
12.	Surveyor's Name(s)	
13.	Captain's name Owner's / Manager's Superintendent	
14.	Operational status of V/L (Loading/Discharging/Anchored/ Standby/Laid-up)	
15.	Next port and cargo (If applicable)	

A. HULL & MACHINERY

A1. Ship's Hull, Structures & Fittings

1.	External shell plating				
2.	Internal shell plating				
3.	Frames, beams, bulkheads, etc.				
4.	Weather decks, foc'sle, poop, catwalks, etc.				
5.	Watertight openings, ports, skylights & scuttles.				
6.	Ballast tanks, peak tanks, cofferdams and void spaces. (A representative sample of each type of ballast tank are to be inspected, it is not a requirement that all tanks are inspected).				
7.	Condition of holds/cargo tanks				
8.	Superstructure & coatings				
9.	Handrails, bulwarks, safe access				
10.	Ventilators, mushroom heads <i>(incl. fire flaps)</i> , air vents & filling pipes, savealls. <i>(Labelled for compartments served)</i>				
11.	Ultrasonic Steel Thickness Gauging: Within Class Limits Yes / No (Confirm that areas outside Class limits have been renewed)	Date:		Place:	
	a) Keel & bottom plates	Ave	%	Max	%
	b) Lower shell strakes	Ave	%	Max	%
	c) Upper shell strakes	Ave	%	Max	%
	d) Main deck	Ave	%	Max	%

e) Tank Tops	Ave	%	Max	%
f) Frames	Ave	%	Max	%

A2. Deck Machinery

1.	Cargo winches <i>(including guards & brakes)</i>	
2.	Cargo cranes, derricks & associated running gear, provisions cranes and engineroom cranes	
3.	 Conditions of mooring arrangements a) Windlass, winches b) Mooring ropes/wires c) Fair Leads and mooring furniture 	
4.	Accommodation ladders / gangways, winches, wires and safety nets	
5.	Pilot ladders and hoists	
6.	Cargo pumps	
7.	Cleanliness of deck machinery spaces and pump rooms	

A3. Main & Auxiliary Machinery

Particular attention is to be afforded to the general cleanliness of machinery spaces and safety/housekeeping aspects.

1.	Main engine(s): type / number of cylinders.	
2.	Thrusters: location / number	
3.	Main Boiler(s): working pressure(s).	
4.	Generators: number, type & output.	
5.	Emergency generator or batteries.	
6.	Switchboards.	
7.	a) Steering gear (tested?)b) Emergency steering (tested?)	
8.	Oily Water Separator operational and instructions displayed? Checked for magic pipe?	
9.	a) Main fire Pump (tested?)	
	b) Emergency fire pump (tested?)	
10.	Floor plates clean / secure?	
11.	All engine room valves and pipes colour coded?	
12.	Cleanliness of machinery, purifiers and other spaces?	
13.	Spare gear, quantity, stowage and condition.	
14.	Condition and type of exhaust and other lagging?	

15.	Remote stop devices (<i>Main engine and fans, tested?</i>). Remote closing devices and level gauges (<i>Fuel tanks etc.</i>) (tested?).	
16.	Bilge & ballast system tested? (Engine room bilges clean/dry?).	
17.	 a) Condition of propeller & rudder? (<i>if in Dry Dock</i>). b) Spare propeller and where stored? 	
18.	Sanitation device (USCG Approved?)	

	Certificate Type	Date of Issue	Last Annual / Intermediate	Date of Expiry
1.	Certificate of Registry		N/A	
2.	International Tonnage		N/A	
3.	International Load Line			
4.	Safety Equipment Certificate			
5.	Safety Construction Certificate			
6.	Safety Radio Certificate			
7.	International Oil Pollution Prevention IOPP			
8.	International Air Pollution Prevention IAPP			
9.	International Sewage Pollution Prevention		N/A	
10.	Fitness for Carriage of Dangerous Chemicals in Bulk			
11.	International Noxious Liquid Substances Certificate (INLS)			
12.	Fitness for Carriage of Liquefied Gases in Bulk			

A4. Certification, Surveys and Record Books

	Certificate Type	Date of Issue	Last Annual / Intermediate	Date of Expiry
13.	Document of Compliance for Dangerous Goods		N/A	
14.	Other Certification: High Speed Craft Safety Certificate Permit to Operate High Speed Craft Special Purpose Ships Certificate			
15.	Passenger Ship Safety Certificate		N/A	
16.	Certificate of Compliance (LY2 Yacht Code compliance)			
17.	Ship Sanitation Control Exemption Certificate / Ship Sanitation Control Certificate (SSCEC/SSCC)		N/A	
18.	Hull Special Survey (Extensions granted if any?)		N/A	
19.	Hull Annual Survey			
20.	Machinery Special Survey (Extensions granted if any?)		N/A	
21.	Machinery Annual Survey			

	Document	Ren	narks
22.	Class quarterly listings / summary (note date and list any Conditions of Class or Class Recommendations or Memoranda also any overdue surveys)		
23.	Shipboard contingency (SOPEP/SMPEP)		
24.	Oil Record Book (Last entry?)	Part 1:	Part 2:
25.	Damage Control Plan		
26.	Loading and Stability Manual <i>(Chemical and Gas tankers)</i>		
27.	Procedures and Arrangements Manual (INLS vessels)		
28.	Cargo Record Book (Last entry?) (INLS vessels)		
29.	Port State Control Inspection. Date & Place?		
30.	Port State deficiencies found?		

	Document	Remarks
31.	Stability:	
	a) Class approved stability book?	
	b) SOLAS approved grain book?	
	c) Endorsed for change of name?	
	d) Any structural changes made?	
	e) Are previous voyages stability calculations on record?	
32.	Relevant IMO publications and IMDG Code Volumes	
33.	Last dry-docking? (date and location)	

A5. <u>Personnel</u>

F	Function		Nationality		CW ication	GMDSS Certification
1.	Master					
2.	Deck Officers					
3.	Engineer Officers					N/A
4.	Radio Officers					
5.	Other Officers					
6.	Deck Crew					N/A
7.	Engine Room Crew					N/A
8.	Other Crew					N/A
9.	Minimum Manning Certificate		Complies: Yes /	No	Date of iss	ue:
10.			crew fluent in a - Language?			
11.	Who and ho English lang	ow many a guage?	are conversant in the			
12.	Is there a de	esignated	Safety Officer?			
13.		correct h	it escape signs eight for smoke on			
14.	Are safety notices displayed?					
15.	Are there ac supplies on Certificate 8	board?	nedical facilities and			

16.	Is the lighting adequate throughout the ship - both portable and fixed?	
17.	Are the crew provided with and using personal safety / protection equipment?	
18.	Is the vessel generally neat and tidy?	

B. <u>SAFETY</u>

1.	Lifeboats & davits	
2.	Liferafts & davits	
3.	Number & positions of Emergency Head Quarters (EHQ)	
4.	Fire extinguishers	
5.	Fixed fire extinguishing arrangements. (Deck, Paint locker, Engine Room &, Cargo compartments etc.)	
6.	Fire lines & hydrants	
7.	Fireman's outfits, Self Container Breathing Appliances & Emergency Life Saving Appliances	
8.	Portable gas meters	
9.	Portable oxygen meters	
10.	Oxygen resuscitator	
11.	Emergency muster / station bill sighted on each accommodation deck?	
12.	Emergency Organisation / Fire Control Plan	
13.	SOLAS / Crew Safety Training Manuals) <i>(1 copy in each Mess Room?)</i>	

C. NAVIGATION AND COMMUNICATIONS

C1. Navigation

NOTES:1.State whether any items are not fitted or not fully operational2.State whether any items have been exempted by flag state

Equipment F				Remarks	Equipment		Remarks	
ARPA		Y	Ν		Radar	Y	Ν	
Echo Sounder		Y	Ν		Sextant	Y	Ν	
Rate of 1 Indicator		Y	N		Auto Steering Off Course Alarm	Y	Ν

Gyro Compass and Repeate	Compass and		N		Emergency Steering Compass	Y	N	
	Electronic Charts /		N		Voyage Data Recorder / SVDR	Y	Ν	
EPIRB	EPIRB		Ν		SART(S)	Y	Ν	
Speed Lo	og	Y	N		GPS / Glonass / Galileo	Y	Ν	
Navtex Receiver		Y	Ν		Course Recorder	Y	Ν	
VHF Rac / GMDSS station		Y	N		M/E Bridge Control	Y	Ν	
Magnetic Compas		Y	Ν		Azimuth Mirrors	Y	Ν	
LRIT	LRIT		Ν		BNWAS	Y	Ν	
1. N	1. Notices to Mariners (N to M's):							
a) What is the date of the latest Notice to Mariners on board?								
 b) Are weekly Notices to Mariners forwarded to vessel as published? 								

2.	Nautical Publications:
	a) Are paper or electronic charts in use, or both?
	b) Do chart folios provide adequate coverage for vessel's trading area?
	b) Charts corrected up to date?
	c) Do publications cover the vessel's trading area?
	d) Publications properly corrected?
	e) Are the latest editions of all nautical publications, such as the Nautical Almanac, Lists of Lights, Ships Routing, IAMSAR Manual etc. available onboard?
3.	Date Magnetic Compass last adjusted?
	a) Deviation card displayed?
	b) Are compass errors logged?
	c) Frequency of errors?
4.	Are passage plans "Berth to Berth" kept?
	Are previous passage plans on file? Y / N
5.	Master's standing orders displayed?
6.	When was the last entry in the Master's Night Order Book?
7.	Are log books properly maintained? (Bridge / Bell / Movement Books / hold bilge & tank soundings / hold temperatures / etc.)

C2. <u>Communications</u>

1.	GMDSS Station / Radio Station:	
	Is equipment operational?	Yes / No
	Is Master confident in demonstrating:-	
	a) Distress operation?	Yes / No
	b) Commercial operation text / voice	Yes / No
	Are distress operating instructions displayed in a common language?	Yes / No
	Is the Log Book maintained and up to date?	Yes / No
2.	Handheld Radios:	
	Portable Radio Sets (VHF / UHF)	
	Working Sets	
	GMDSS Sets (Spare Batteries & Chargers?)	

D. SHIPBOARD MANAGEMENT

1.	ISM System			
	Document of Compliance (DOC):			
	Issuing Authority?			
	Date of issue?Annual endorsement in date?			
	Expiry date?			
	Safety Management Certificate (SMC):			
	 Issuing Authority? 			
	Date of issue?Date of intermediate survey?			
	Expiry date?			
	Last internal audit date?			
	All non-conformities cleared?			
	Last external audit date?			
	All non-conformities cleared?			
	Company Operations Manual?			
	Manual pertinent to ship type?			
	Procedures for contacting DPA?			
	Document of Master's Authority?			
	Shipboard training programme?			
2.	Planned maintenance scheme			
	a) On deck			
	b) In engine room			
	c) Hatch covers			
	(Brief description of each)			
3.	Garbage/Refuse Disposal			
	MARPOL 73/78 Annex 5			
	a) Garbage management plan?			
	b) Arrangements for stowage?			
	c) Adequate garbage bags?			

		(Plastic and/or paper)			
	d)	Storage area / spaces clean?			
	e)	Garbage disposal log entries?			
4.	Bur	Bunkering			
	a)	Standing orders & check lists			
	b)	Piping / valve diagram			
	c)	Savealls at manifold & vents			
	d)	Scupper plugs			
	e)	Oil spill equipment quantities			
		1. Absorbents			
		2. Dispersants			
5.	Oily	/ Water Separator			
	a)	Operation tested			
	b)	Checked for by-pass / magic pipe			
	c)	Overboard valve locked closed			
	d)	Warning notice that valve is to not be opened without the permission of the C/E.			

E. <u>SHIPBOARD SECURITY</u>

1.	ISPS Security System	
	Ship Security Certificate (ISSC):	
	 Issuing authority? Date of Issue? Date of intermediate survey? Date of expiry? Shipboard security drills / exercises conducted? (Date of last drill)? Control of access to ship effective? Qualified Ship Security Officer (SSO) onboard? Ship identification number permanently	
	and visibly marked?	
2.	Ro/Ro Security: Are gangway and vehicle ramp(s) security provisions effective?	
3.	 Passenger Ship Safety Certificate: a) State maximum number of persons the ship is permitted to carry. 	
	b) Are proper records of persons on board maintained?	

F. CARGOWORTHINESS (DRY CARGO)

State cargoworthiness tests conducted during the survey and results of all tests:-

1.	Hatch covers weathertightness to be tested, (ultrasonic testing preferred).	Yes / No	
2.	Operation of the hold bilge suctions and non- return valves to be tested.	Yes / No	
3.	All ballast tanks surrounding the cargo holds are to be hydrostatically tested to ensure the tanks and their associated sounding pipes, air vents and manhole covers are watertight.	Yes / No	
4.	Number of cargo holds?		
5.	Number and type of hatche	s?	
6.	Are the hatches properly strengthened and fitted for t carriage of containers?	he	
7.	Are other deck cargoes cert carried - including timber, lo		
8.	Is the vessel provided with:	-	
	a) Approved Cargo Secu Manual?	ring	
	b) Adequate lashing equi cargo types carried?	pment for	
	c) Inspection / maintenar manual?	ice	
	d) Is lashing equipment certified?		

9.	Container capacity:	
	Reefer container capacity:	

G. ADDITIONAL FOR LARGE DRY BULK VESSELS

(I.e. Oil/bulk/ore, capesize and VLOC's etc.)

1.	Is any information available onboard the vessel regarding loading rates for iron ore and/or other high specific gravity (S.G.) cargoes that have been loaded?	Yes / No.
2.	If such information is available, and if p information in tabular form as an adder	
	Date(s) of loading	
	Loading Ports / Terminals	
	Loading pattern / No. of holds loaded	
	No. of passes during loading	
	Loading rates (tons/hour)	Average: Maximum:

H. CARGOWORTHINESS (TANKERS)

State cargoworthiness tests conducted during the survey and results of all tests:

1.	Hydrostatic test of cargo tank bulkheads	Yes / No	
2.	Pressure test of cargo pipelines	Yes / No	
3.	Pressure and function test of heating coils	Yes / No	
4.	Function test of inert gas system	Yes / No	
5.	Function test of pressure/vacuum valves	Yes / No	
6.	Note the number and grade of cargoes which can be carried whilst maintaining 2 valve separation.		
7.	Is vessel single or double hulled?		Single / Double
8.	Control room. All facilities fully operational?		
9.	Are segregated ballast tanks fitted?		
10.	ls a vapour return system fi	tted?	
11.	Are loading and discharging operations performed in "Closed" conditions?		
12.	Are UTI electronic tapes compatible with ullage port vapour locks?		
13.	Are instruments correctly calibrated with records and procedures correctly maintained and documented?		

14.	Are high level alarms operational?	
-----	------------------------------------	--

The surveyor should attach a copy or sketch of the plan layout of cargo tanks and the pipeline system.

I. CARGOWORTHINESS (RORO'S)

(No passengers or less than 12 drivers)

1.	Shell doors/ramps to be tested for weathertighness	Yes / No	
2.	Vehicle Deck Protectic a) State fire protection		
	vehicle decks		
	b) State fire detection s vehicle decks	system for	
	c) Are these systems t maintained properly		
	d) Vehicle deck restrai	nt systems	
3.	Emergency Lighting:		
	Does the vessel have an emergency battery lights		
	Damage Control:		
4.	Damage Control:		
4.	Damage Control:a) Do all hull doors have closed indication?	ve remote	
4.	a) Do all hull doors hav	and securing	
4.	a) Do all hull doors have closed indication?b) Are hull doors seals	and securing aintained? ortable flood	
4.	 a) Do all hull doors have closed indication? b) Are hull doors seals devices correctly matched by the supplemental point of the supplementa point of the sup	and securing aintained? ortable flood nicle decks? xemptions for or regional	
4.	 a) Do all hull doors have closed indication? b) Are hull doors seals devices correctly matched by the supplemental period barriers fitted on velocities and class/flag e SOLAS compliance 	and securing aintained? ortable flood nicle decks? xemptions for or regional ? tted with	
4.	 a) Do all hull doors have closed indication? b) Are hull doors seals devices correctly matched by the supplemental probarriers fitted on velocations of the solution of the	and securing aintained? ortable flood nicle decks? xemptions for or regional ? tted with urn valves? t down shicle deck	

J. <u>OFFSHORE VESSELS – Inc. BARGES, ANCHOR HANDLING TUG</u> <u>SUPPLY, PLATFORM SUPPLY, TUG, S-LAY PIPELAYERS &</u> <u>WORKOVER/INSTALLATION VESSELS</u>

1.	Barges
	a) Check the condition of the main towing bridle, including chains/wires/shackles/delta plate, Smit Brackets and recovery winch.
	 b) Check the condition of the emergency towing wire, including Smit Bracket, chain, shackles, wire and pick up rope and buoy.
	 c) Ensure access ladders on the barge hull are in satisfactory condition with safe access to deck.
	 d) Ensure both tyre and half round bar fendering are in satisfactory condition.
	e) Check that navigation lights and shapes are displayed in line with the requirements of the COLREGS, with adequate spare bottles when gas is the power source.
2.	AHTS / PSV Cargo Systems:
	a) Are all cargo systems operating satisfactorily: dry bulk, potable/drill water, mud/base oil/brine and fuel?
	b) Are all couplings, hoses, reducers and air relief valves in good condition?
	 c) Check the condition of the crash rails, wooden deck sheathing, casing posts, lashing points and lashing materials.
3.	Towing / Pushing Gear:
	a) Check the condition of tow, work and tugger winches.

	b)	Check the condition of the	
	0)	towing, work and tugger wires and their sockets.	
	C)	Check the condition of shackles and ancillary towing rigging such as stretchers and surge chains.	
	d)	Check the condition and operation of ancillary towing equipment such as tow pins, sharks jaw and gog arrangements.	
	e)	Check bow connecting pins / bow winches and associated wires for pushing ahead.	
	f)	Ensure tyre, rubber and half round bar fendering are in satisfactory condition.	
4.	S-Lay	Pipelay	
	a)	Check on the condition of the ready rack, firing line, welding / NDT and field joint coating stations.	
	b)	Check on the condition of the tensioners and stinger.	
5.	Dynam	ic Positioning	
	a)	What DP class is the vessel?	
	b)	Are all DP desks, machinery, position measuring equipment; gyro's, motion reference units and anemometers working satisfactorily?	
	c)	Is the vessel in date for annual DP trials?	
	d)	Date of the last Failure Modes Effects Analysis?	
	e)	Have any modifications been made to the vessel since the last FMEA requiring a new analysis?	

6.	Workover / Installation Barge / Vessel	
	 a) Check the condition of the anchor mooring spread, including winches, wires, anchors, and associated mooring line jewellery. 	a)
	 b) Helidecks - check internal and external nets, perimeter lights, windsock and floodlights, aeronautical radios, helideck markings, specific firefighting appliances and refuelling or hanger facilities, if fitted. 	b)
	c) Are all heavy lift cranes in satisfactory condition and in date for proof load testing and examination? If a crane hook is used for manriding check basket condition and ensure crane is certified for manriding.	c)

K. SUPER / MEGA AND GIGA YACHTS

1.	Tenders – check manning, condition and equipment on all tenders and ancillary craft.	
2.	Helidecks - check internal and external nets, perimeter lights, windsock and floodlights, aeronautical radios, helideck markings, specific firefighting appliances and refuelling or hanger facilities, if fitted.	

L. PASSENGER SHIPS - INC. PAX RO-RO FERRIES

L.1 Fire Control

1.	Fire Screen Doors:	
	 Are remote release doors functioning with proper indication on the bridge? 	
	b) Are manually operated doors properly maintained and kept closed?	
	c) Are all doors maintained and recorded in safety records?	
2.	Fire Bulkheads:	
	a) Are main fire zones marked on fire control plan?	
	 All improper bulkhead penetrations to be noted. 	
3.	Sprinkler System:	
	 Are accommodation and storeroom spaces fitted with an automatic sprinkler system? 	
	b) Is the system properly tested and maintained?	
4.	Ventilation Fire Flaps:	
	a) Are internal fire flaps marked, tested and maintained?	
	b) Are external fire flaps marked, tested and maintained?	
5.	Fire Detection:	
	a) State type of fire detection system.	
	b) Is the system properly tested and maintained?	
	c) Are manual (push button) alarms tested, recorded and maintained?	

L.2 Life Saving

1.	Emergency Organisation:	
	a) Is there an effective evacuation plan for passengers and crew?	
	b) Are there procedures for checking passenger names at muster points?	
	c) Are the crew trained in handling passengers in an emergency?	
	 Are sufficient crew able to communicate with the passengers in an emergency? 	
	e) Are the passengers provided with proper emergency instructions by general announcements and signs in cabins and public areas?	
	f) Does the PA system reach all parts of the vessel, including crew areas and outside decks?	
2.	Emergency Lighting / Escapes:	
	a) Is emergency lighting operable on generator and battery supplies?	
	 b) Are all passenger and crew emergency escapes properly marked, lit and free from obstructions? 	

L.3 Damage Control

1.	Documentation & Training:	
	a) Does the vessel have an approved "Damage Control Plan"?	
	 b) Does the vessel have an approved "Damage Stability Book"? 	
	c) Could the crew effectively contain flooding in any given compartment following damage?	
2.	Powered Watertight Doors:	
	a) Are doors operable from the bridge remote station?	
	b) From bulkhead deck remote station?	
	c) From local control?	
	d) By reserve and manual power sources?	
	e) Are watertight doors regularly tested and maintained?	
3.	Damage Control Valves:	
	Are the following systems operable:	
	a) Emergency bilge pumping system?	
	b) Through bulkhead sewage valves?	
	c) Sewage side valves?	
	d) Cross over valves and lines?	
	e) Any other damage control devices?	
	f) Are all systems operable from the bulkhead deck remote stations?	
	g) Are all systems properly tested and maintained?	

L.4 Public Health

1.	Has the ship been inspected by local health authorities?	
2.	Has United States Public Health Service inspected the vessel and what points were scored? (Describe major deficiencies.)	
3.	Are crew trained in establishing and maintaining sanitation standards?	
4.	Are food preparation areas and storerooms clean and sanitary?	
5.	Are the potable water system treatment records maintained?	
6.	Are swimming pools / spas treated and records of water quality maintained?	
7.	Does the medical office maintain records of diarrhoea cases?	

Remarks:

L.5 <u>Security</u>

1.	a) Does the vessel have a Security Plan, in accordance with the ISPS Code?	
	b) Are the crew trained in accordance with the Security Plan for gangway security, bomb search and other provisions?	

L.6 Personal Injury

1.	Is the ship stabilised and the system operable?	
2.	Are passenger and crew accidents properly investigated and reported?	
3.	Are general accident prevention announcements made at the start of the voyage and supplemented by written notices?	
4.	Are stairs, outer decks and other potential hazards properly marked, with warning signs posted?	
5.	Are stairs and handrails well designed, maintained and records kept?	
6.	Are start/end of stairways and differences in deck levels clearly marked by warning colours / designs?	
7.	Do outside decks have adequate anti- skid resistance when wet?	
8.	Are swimming pools / spas equipped with handrails, non-slip decks and pool rules signs posted?	
9.	Are passenger areas fitted with sufficient photoluminescent escape signs sighted below smoke level?	
10.	Are emergency lighting strips, indicating escape routes, fitted and operational?	
11.	Are lifts inspected and certified by an approved company?	

This report, and any accompanying documentation or photographs, has been compiled for the sole use of the Association for insurance purposes only. It should not be disclosed to any third parties without prior written permission from the Association.

The information contained in this report, and any accompanying documentation or photographs, is not exhaustive as to the general condition of the ship and should not be relied upon by members or by any other party as any assurance, representation or warranty as to the condition of the ship and nothing herein shall prejudice the Club's rights under the insurance policy, in the event of a dispute between the Club and the member relating to the condition of this ship.
